CLASS WITHDRAWAL INFORMATION

Class withdrawal began Tuesday, Sept. 6, and will end on Friday, Oct. 8, at 4:00 pm. All class withdrawals must be processed through the Office of the Regitrar. Students are permitted to withdraw from classes without penalty through the end of the ninth week of the semester. A grade of "W" will be reported on the student's grade report and transcript for all withdrawals processed in the Office of the Regitrar during this period. Students who withdraw from a class after Friday, Oct. 8, and those who do not officially withdraw from a course for which they have registered, will receive a grade of "E" with quality point bearing.

For more information see the Administration office, Frame Hall.

CREDIT-NO RECORD

Credit-No Record begins Monday, Sept. 12, at 10:00 am, and will end on Friday, Sept. 30, at 4:00 pm. Full-time and part-time students in good academic standing who have earned a minimum of thirty credits (including transfer work) as of 8-29-88, may elect to take one course each semester under credit-no record. The option is limited to a total of 6 undergraduate courses or 18 credit hours which are not requirements in the student's major. Letter grades are not reported for courses taken credit-no record and therefore the student's semester and cumulative quality point averages are not affected. Credit (CR) is awarded whenever a grade of "C" or better is earned. Credit is not awarded and the course does not appear on the student's grade report or transcript whenever a grade is earned lower than a "C".

For more information see the Administration Office in Frame Hall.

FROM THE EDITOR

If you are observant, you will notice several things around this campus. The most alarming, which was recently brought to my attention, is that there seems to be a communications problem on campus. Although events are publiced on posters and in the BULLETIN, no one seems to know about them. For example, several people have expressed an interest in working on the BULLETIN or the yearbook. A publications meeting was scheduled for Thursday, Sept. 8, as a way to get things organized. As far as I know, no one showed up for the meeting. Perhaps they honestly forgot about it, I almost did, until I say a poster Wednesday afternoon.

Another example, there have been posters up announcing that senate petitions are available. As of the last report I heard, only two petitions had been picked up.

Now these two examples may mean that no one is seeing this information or it may mean that no one wants to be involved in campus activities. Either way it does not say a lot for the students on this campus. If any one has any other opinions on this matter or if they have any suggestions on a solution to this problem, I will gladly print them, provided they are signed by the person submitting them. I don't expect to many responses, no one will want to get involved.

NO PARKING

8:00am to 6:00pm

PARKING REGULATIONS

If you are parked on Venango Campus anytime between 8:00 am and 6:00 pm, you MUST have a student parking decal on the rear bumper or in the bottom left hand corner of the rear window of your car. On Sept. 1, student senate voted to purchase one parking decal for students with 6 or more credits. The $2 fee will be paid from the activities fees paid by students who take 6 or more credits. If you will be driving a second vehicle or if you are taking less than 6 credits, you will need to purchase a parking decal. A 1988-89 Venango parking decal costs $2 in August (2 semesters) or $1 in January (1 semester). You can register your car and get your decal in Frame Hall Office.
Remember- If you will be driving more than one car to campus, you will need a decal for each car. Decals only give you permission to park on campus - they DO NOT guarantee you a parking space. OVERFLOW PARKING is available on West First Street of the front lot of PENELEC. The PENELEC lot is well lighted and is free for student use after 5:00 pm. REFUNDS will be made, at the Rhoades clerk's desk, this week to any one who qualifies.
CLARION CAMPUS PARKING - If you will be parking on Clarion Campus, you must have a Clarion parking sticker. Venango Campus will honor Clarion stickers. If you have a Clarion sticker you DO NOT ALSO NEED A VENANGO DECAL.

OPINION POLL

WHAT DO YOU THINK OF THE NEW LOOK TO THE BULLETIN?

As you may have noticed, last week's BULLETIN and this week's BULLETIN look different from BULLETIN in the recent past. Because we are now taking the BULLETIN to a professional print shop to be printed, it no longer has to be reduced to fit the office mimeograph machine. This makes the BULLETIN print larger and much more ledgible. If you, the students, like this new look we will continue to have it printed off campus. This may also lead to other improvements in the publication of the BULLETIN, making it bigger and better.

If you like the new look, check YES. If you don't like it, check NO. Detatch this portion of the BULLETIN and drop your vote in the ballot boxes when you vote for senate and homecoming queen. Thank you for your time and opinions.

_____ YES, I like the new look of the BULLETIN

OPINION POLL

WHAT DO YOU THINK OF THE NEW LOOK TO THE BULLETIN?

As you may have noticed, last week's BULLETIN and this week's BULLETIN look different from BULLETIN in the recent past. Because we are now taking the BULLETIN to a professional print shop to be printed, it no longer has to be reduced to fit the office mimeograph machine. This makes the BULLETIN print larger and much more leggible. If you, the students, like this new look we will continue to have it printed off campus. This may also lead to other improvements in the publication of the BULLETIN, making it bigger and better.

If you like the new look, check YES. If you don't like it, check NO. Detatch this portion of the BULLETIN and drop your vote in the ballot boxes when you vote for senate and homecoming queen. Thank you for your time and opinions.

CORRECTION: Return opinion poll to Room 218F.

TO BAN OR NOT TO BAN?

That is the Question

Many people have been talking about the recent notice in the "Bulletin" about the possibility of banning smoking at Venango Campus. Well, Smokers and Non-smokers here is your chance to be heard. If you do not let the administration know your opinion, in writing, they will have to make the dicission for you. So get off your cans and complete this survey.

THIS MEANS YOU!

Place an X under the appropriate answer to the following statements:

YES	NO	
		Leave smoking on campus as it is now.
		Make the campus smoke free
		Montgomery should be smoke free
		Only Rhoades should be used for smoking
		A Designated smoking area in buildings

If you have another suggestion, other than one listed, please make it in 50 words or less. Attach it to the survey and return them to the Frame Administrative office in care of the Student Senate. Opinions will be taken until October 27. Your Student Senate wants to let the faculty and administration know your opinions. So, take the time to voice it. If you do not voice your opinion now you may lose it. The Venango Campus Student Senate is only trying to protect the opinions of the majority of students on this campus.

Because Venango Campus has no Winter Commencement, you can either 1) attend graduation in Dec. at Clarion, 2) attend graduation in May at Venango Campus, or 3) NOT attend either graduation. It is critical that you inform Dr. Rookey of your choice, option 1,2, or 3. Your diploma will arrive at your home in February regardless of which option you pick.
May 89 grads - you should have your advisor sign your Application for Graduation during spring preregistration in Oct. Applications for Graduation are available in Frame Office.

WHAT IS A ROAD RALLY?

Posters around campus have been asking that very question. Well, Savage's twin brother Saint has the answer. But he's not talking. All he would say was that it is a combination of detective work and puzzle solving. And, that it was more fun than eating jelly sandwiches in a mud bath, maybe. The campus' next rally will be on November 6, with the first car starting at 3:00pm. Cars will start at 5 minute intervals. A team is 1 car and 4 people. There will be intact teams and we will form teams from groups who have less than 4. So plan on joining Savage and Saint in a good time at the road rally.

SECOND PROGRAM PRESENTED BY DR. BISHER

On Thursday, November 3, Dr. Bisher will present a program on "Burial Practices and Everyday Life in Ancient Egypt". The program will be at 7:00pm, watch for information on the room location.

HE COULD HAVE USED A GOOD BELT

Seatbelt that is. Every year hundreds of people across the U.S. die because they wouldn't wear their seatbelt. Hundreds, even thousands more are severely injured.

On Wednesday, November 9, at 7:30pm in Rhoades Auditorium, you will have the opportunity to ask some experts about child carseat safety and sealbelt safety regulations and reasons. Along with the lecture, there will be a demonstration on the use of seatbelts. The Pennsylvania State Police will ask for audience participation in riding their 7 mph car crash simulator. Bring the kids - bring your family & freinds - bring the soon to be cruising teenagers. Give the simulator a try, you may be very surprised.

Questions will be encouraged. Find out now before it is too late!

SURVEYS

TO PROVIDE OPINIONS ON IMPORTANT CAMPUS ISSUES

STUDENTS ASKED TO COMPLETE TWO SURVEYS

SNACK BAR CHANGES:

Many students have been complaining about the snack bar this semester. The administration would like to know the students' opinions on what types of food and/or beverages you would like to get from the Venango Campus snack bar. Below please list the items you would like to see served at the snack bar.

Please limit your suggestions to between 7 and 10 items. Please be realistic in your suggests as they may be what appears within the next few weeks.

1.

2.

3.

4.

5.

6.

7.

8.

9.

10.

Return your opinion ballot to the envelope outside room 218 Frame by October 20 or we may not even have the food you want or even worse no snack bar the rest of the semester. It is your choice give an opinion or lose out.

TO BAN OR NOT TO BAN?

That is the Question

Many people have been talking about the recent notice in the "Bulletin" about the possibility of banning smoking at Venango Campus. Well, Smokers and Non-smokers here is your chance to be heard. If you do not let the administration know your opinion, in writing, they will have to make the dicission for you. So get off your cans and complete this survey.

THIS MEANS YOU!

Place an X under the appropriate answer to the following statements:

YES	NO	
		Leave smoking on campus as it is now.
		Make the campus smoke free
		Montgomery should be smoke free
		Only Rhoades should be used for smoking
		A Designated smoking area in buildings

If you have another suggestion, other than one listed, please make it in 50 words or less. Attach it to the survey and return them to the Frame Administrative office in care of the Student Senate. Opinions will be taken until October 19. As stated on page one, the hearing is set for Oct. 20. Your Student Senate wants to let the faculty and administration know your opinions. So, take the time to voice it. If you do not voice your opinion now you may lose it. The Venango Campus Student Senate is only trying to protect the opinions of the majority of students on this campus.

FROM THE EDITOR

Last week the Oil City Derrick ran an article concerning the possible tobacco ban on campus. In the article they mentioned a survey that the Administration had taken. As editor of the BULLETIN and one of two people who actually put the survey together, I would like to thank the Administration for giving credit where THEY felt credit was due. Now for the real credit - thanks go to Kim Price, Candy Donahue, and Deb Strausser for their assistance with the survey. For although the idea of doing a survey was first brought up at a student senate meeting where the Administration was present and did contribute to the idea, the BULLETIN is aware of who really did all of the work. But, we would like to thank the Administration for publicizing the results of the survey, even if they were slightly inaccurate. The BULLETIN will run the accurate results of the survey as well as a report on what went on at the hearing on the 20th, in next week's issue. We will try to keep the students of Venango Campus up to date on this very important issue.

MS. MAGAZINE IS AVAILABLE IN THE CAREER LAB. STOP IN TODAY AND PICK UP A COPY.

Saint Savaged by Savage

In a brutal display of savageness, Savage savaged his lovable twin brother Saint. It is rumored that the dispute was over the issue of who was actually in charge of the upcoming Road Rally on Nov. 6. Savage, the alleged less knowledgable of the twins, was under the assumption that he was in command of the event. Saint, because of his higher intellegence, felt that he should be the one in control. Several bystanders were injured trying to break up the ensuing fight. Saint was treated and released at a nearby animal hospital. As he was leaving the hospital, Saint could be heard muttering that famous quote "I have not yet begun to fight". Savage could not be reached for comment at this time. Come to the Road Rally this Sunday to find out the winner in this battle for command between Saint and Savage. Sign up sheets are located in Frame office and at the Rhoades Desk. Teams will be starting at five minute intervals, beginning at 3pm on Sunday. It will take roughly 50 miles and 2 hours to cover the course. Check out Savage's posters for more details.

Thanks Penelec

The campus owes a thanks to Penelec. They donated a $300 electronic system for the college bowl series we are hosting in December and January. We ahve been fortunate in terms of support from local businesses.

To The Editor

Dear Editor,
The office in Frame receives lost and found items every week. Most of them are not claimed!
I refer to calculators, books, and class notes which must be missed. But, how about sweaters, gloves, glasses, and shoes? Wouldn't someone barefoot, sweaterless, without glasses and not carrying their text think something was wrong?

Dean Rookey

From Senate

The Student Senate would like to express its sincerest apologies to the students of Venango Campus, especially to two students in particular: Janey Slagle and Marci Fleming. Because of miscommunications and misunderstandings among the senators, confusion arose concerning the theme to the Christmas Dance. To rectify the unfortunate situation that has arisen, we have declared Marci and Janey co-winners. A combined theme, color pattern, and decoration ideas should be announced in the near future. We are sorry for any problems this may have caused. Steps have been taken by the Senate to ensure that this type of situation does not happen again. We ask that Marci and Janey accept our apologies and our congratulations.

TOBACCO BAN

Here are the accurate results of the recent survey we ran. The figures are from the "YES" responses to each question.

23% said to leave the smoking as it is now
23% said to make the campus smoke-free

19% said to make Montgomery hall smoke-free
6% said to have smoking in Rhoades only
29% said to have designated smoking areas

The Student Affairs Committee of the Clarion Faculty Senate held a hearing on Oct. 20, to gather opinions from students and other faculty regarding this issue. According to the article in the CLARION CALL, "only a few students turned out for the hearing". They will now take the information they gathered under consideration and will be making a dicision on a tobacco policy in the near future. Further opinions on this issue can be directed to Dr. Stephen Ainsworth in Founders Hall on the Clarion Campus.

The winning team was the A.T.P.'s - Jackie Runge, Joyce Ritts, Lenora Felmlee, and Peg Smith. Second place went to the Red Barons, captained by Lee Beichner. Coming in third and fourth, repectively, were Betty's Bouncers and the Sprinters. Thanks go to Dr. Rookey for helping Saint and Savage organize and run the event. By the way, watch for other capers from those two loveable twins. You never know when they may pop up again.

MEMORY TECHNIQUES

The "Memory Techniques" presentation on Saturday, Nov. 12, was a success. I want to thank the students who attended. And to those who missed it, no problem. There will be another presentation on Nov. 29 in the tutor office in Montgomery Hall at 4:30 pm.

John A. Best

EDITOR'S NOTE: the BULLETIN encourages all students to take advantage of the many different personal, career, and study/academic programs offered on campus. They are done for your benefit. Let's make all the presentations as successful as John's!

From The Editor

NOTE: the following editorials were submitted to the BULLETIN by a Venango Campus student. The BULLETIN will publish such editorials provided that the original copy is signed by the student and that the student submits the copy to the BULLETIN editor, Beth Davidson, in person. Unless otherwise requested, students name will appear with their editorial in the BULLETIN.

TO ALL STUDENTS: Please be aware of the fact that the Oil City Police Dept. is definately on its toes. They have been ticketing people driving over the speed limit down west 1st street. Some students have been lucky enough to get only warnings. Other students have received tickets. So, leave home early for your classes and watch those speedometers!

MACHINE ABUSE: To all students who use the pinball machines - these machines are for your use, not your abuse. In all my years I've yet to see a pinball machine work better by hitting, slamming, or kicking it. These machines are to benefit you. Please take care of them and stop abusing them.

Wow! It's Almost Over!

BY KAREN IRWIN

I can't believe I've made it! I'm a returning adult student who has been out of school for 23 years. What a time I have had! I have had sleepless nights; cried over Algebra; taken my first essay test ever; experienced things so foreign to me I might as well be on another planet!

I have had to make so many adjustments; learn new study habits; be away from my family. And, even when i"m home with them I am "away" from them. Studying, studying, studying! My family has had to make many adjustments, too. It's been hard on them. My husband thinks I no longer need him. My kids think I don't care. My pets think I'm a stranger! I was ready to hang it all up a few weeks ago until I took a good hard look at what I was all about. Why was I here? What was I learning? Well, I'll tell you! I might not pass algebra this semester, but I did learn that -6 + 4 = -2. Also, a poli is a Greek city-state, George Washington took office April 30, 1789, and, most importantly, a schizophrenic is NOT a split personality. Along the way I have also learned better study habits and how to write a term paper.

I have made lots of new and wonderful friends, people who care and are willing to help anytime. I have learned many new things. The most important thing is that by attending college, if I have only learned one new thing that I didn't know before, it has been worth it. My family is adjusting better now. It will take time. I'm studying better. That will also take time. But the main thing is that it is important to me to learn new things and I'm goung to stick it out and do the best I can. So all you returning adult students hang in there. It's worth it!

I'm looking forward to January.

New Type of Schizophrenia Discovered!

Have you ever heard of Fin-am Schizophrenia? Of course you haven't. But don't let that worry you. You see, it has just recently been "discovered." Fin-am stands for final exam induced. This type of schizophrenia is found only in college students. The episodes of schizophrenic behavior usually only occur twice a year, once for approximately two weeks in early May and once for approximately two weeks in mid-December. Symptoms of Fin-am are similar to those of other schizophrenias. Sufferers of this dreaded disorder often withdraw from society. They tend to lose touch with reality. Often they are seen sitting alone or roaming the halls talking to themselves in strange voices. Text books become sacred material to be memorized word for word (a real break from reality!). Paranoia is evident, all their professors are out to get them. Catatonic episodes may occur. Unfortunately for the poor souls who suffer from Fin-am, these episodes often occur during the actual time of their final exam. If you or anyone you know may be a Fin-am schizophrenic DON'T PANIC. Professional help is not necessary. Altough, as with all schizoprenias, no permanent cure is know, symptoms of Fin-am disappear following the students graduation from college. Symptoms will then not reappear unless the student enrolls in college classes sometime in the future. Remember, episodes only occur for four weeks out of the year. The rest of the time most Fin-am schizophrenics are healthy, semi-adjusted members of society. So, have pity on these unfortunate people if you should notice them during one of their schizophrenic episodes, it will pass!

Editorial

by B.E.D.

Rumor has it that books are being stolen around campus. Several have been taken when people just step out of their classroom for a few minutes. This is just plain stupidity: Stupidity on the part of the person whose books were stolen for not marking their books better (try writing your name or initials on the edge of the pages), and stupidity on the part of the thief because heresay has it that theft will result in an automatic expulsion if the party is caught! Please be careful with your possessions. If someone will take a textbook, other items are bound to be taken, too!

Monday, January 30 is the last day to submit applications for Student Senate! If you are interested, get your name and reasons for interest in now!

The Yellow Submarine Snack Bar welcomes you back with these specials for this week: Mon. Taco salad/sm. drink - $2.29 ; Tues. Cheeseburger/Fries/ sm. drink - $2.35 ; Wed. Hot Dog/Fries/Sm. drink - $1.55 ; Thur. Grilled cheese sandwich/Tomato soup/sm. drink - $1.85 . We welcome any menu suggestions. We will serve special events or luncheons (with advance notice).

Battle of the Bands

March 30 in Rhoades Gym at 8 pm
A minimum of 5 bands will be competing for the $500 First Prize, with a $200 Second Prize and $100 Third Prize. There will be pop and snacks.
Student IDs will be checked at the door.

From the Editor

It has come to my attention, through the editorial submitted last week by a concerned student, that textbooks are being stolen around campus. It's a sad commentary on our society that people stoop to stealing books off fellow students. Get some shame, book-burglars! Not only is it illegal to steal in the first place, it will result in an immediate dismissal from this school! It's foolish to risk so much for a textbook. As for the honest students on campus, it would take very little time and effort to write your name somewhere in the book so it can be identified as yours. Make the effort! While it might not have happened to you yet, you may be next. As for the thieves, I can only hope it happens to you so you find out how it feels!

The Yellow Submarine Snack Bar is offering these specials for this week: Mon. Cheeseburger/Fries/Sm. drink - $2.35; Tues. Taco salad/Sm. drink - $2.29; Weds. Tuna sandwich/Sm. drink - $1.65; Thur. Meatball sandwich/Sm. drink - $1.80; Special for the week: Fried Mushrooms - $1.65.

WHAT'S YOUR STYLE??

Answer True or False to the following statements:
* I would rather watch an athletic event than participate in it.
* I would rather learn about the news listening to the radio than reading about it.
* I choose my clothes by the way they feel on me.

Believe it or not, your answers to statements like these help to reveal your learning preference or learning style. You may be classified as a visual, auditory, or kinesthetic learner.

The "Learning Styles Inventory" is just one of four areas included in a new software package available for student use through the Tutoring Office. *Self Exploration in Study Skills* helps students analyze their present level of study skill proficiency while providing them with ideas for improvement and change.

Stop by the Tutoring Office, rooms 207 and 209 Montgomery, and have a tutor get you started on the easy-to-use study skills guidance system. Check future BULLETINs for information on special programs which will be offered to acquaint students with the new software.

Editorial

During Finals Week of last semester, a professor's car was vandalized. The damage was too specific to have been a random incident; it was directed at this one professor.

This incident does not reflect well on the campus and the student body. It is assumed that college students are too mature to pull such childish, ignorant stunt. The person or persons responsible have made all the students on campus look bad.

Anyone having any information regarding this incident is asked to contact any Student Senator or Dean Rookey. If those responsible come forward on their own, their punishment will be less severe. If they will not come forward, we will have to rely on other students for information. So please, if you know anything, COME FORWARD.

Also, on behalf of the students not involved in this incident, the BULLETIN would like to express our sincerest apologies to this professor. We are sorry this happened.

Student Senate is looking for students to be judges at the Battle of the Bands. Apply to the Senate via the mailbox in Frame. Also, a "people's choice" trophy will be given away. So come out and support a band.

Rhoades Movie for Monday & Tuesday: *Good Morning, Vietnam* **starring Robin Williams. Suggestions for movies can be left in the box on the TV or in the Senate mailbox in Frame.**

Smoking Pathology Article #1

As one facet of Venango's newly-funded Smoking Cessation Program, Dr. Belzer will provide the BULLETIN with a series of short articles that examine the ways that cigarette smoke damages the body. This is the first in that series. You can get additional information by contacting Bill Belzer.

Cilia are small hair-like structures found in the lung's air ways. They continuously sweep pollutants, viruses, bacteria, and other damaging material out of the lungs. This activity helps to protect the delicate membranes in the lung from destruction. The first reports to Congress on the health consequences of cigarette smoke (mandated by law almost 25 years ago) recognized that an immediate effect of breathing in cigarette smoke is the paralysis of these cilia. The result is the settling of mucus, bacteria, viruses, and pollutants deeper into the lungs where they produce the increased incidence of repiratory tract infections, lung cancer, and destruction of lung tissue (emphysema) found in smokers.

One of the earliest signals that the cilia have stopped functioning is the appearance of microscopic mucus plugs coughed up in the saliva. These mucus plugs or casts are pieces of condensedmucus that settled into and impacted the small air tubes in the lungs. Even back in the mid-60's it was known that these same mucus plugs appear in the saliva of non-smokers who are exposed to cigarette smoke, but they do not occur in non-smokers who live in a smoke-free environment. However, not until the 1980's have researchers begun to study and document the damage to non-smokers suffered from breathing in second-hand cigarette smoke.

Research with dogs showed that after the loss of ciliary function, continued smoking (for about 44 days) leads to the outright destruction of many of the cilia. By 420 days of inhaling cigarette smoke, the cells that produce cilia were destroyed and replaced by a different type of cell that does not make cilia, thereby removing the major defense for the lung.

The study did not specify how long it takes, after the the body is no longer exposed to smoke, for the cells to return and grow new cilia; but this DOES happen (perhaps within weeks?) and thus begins to return this important protective function for the lung. Quitting smoking is not only good for you but for the people near you.

Study Tips

The most common criticism of research papers is that the topic is too broad. It is important to narrow your topic to a manageable scope and to find a focus for your paper so that it has direction and purpose. If you have a research paper due before the end of this semester and are having trouble getting started or developing your ideas, visit the Tutoring Office in rooms 207 & 209 Montgomery for help. Tutoring Supervisor Linda Hawkins will be happy to set up an appointment with you. Call at 676-6591, extension 273.

If an Emergency Disaster Alert is called by the county, each building will be alerted by telephone. Students and employees are to proceed to an area inside the building away from glass windows. No one is to go outside until the alert is over.

Tips from the Tutoring Office

by Linda Hawkins

According to researchers, there is a clear relationship between study strategy and the quality of learning outcome. Increased comprehension, retention, application and problem solving have been associated with a deep processing style. When studying a text, for example, deep processors try to penetrate to the intention of the author by comparing and contrasting ideas and critically analyzing relationships, rather than memorizing the text itself. If you would like to find out more anout learning styles and strategies, contact the Tutoring Office at 676-6591 extension 273 or stop by rooms 207 and 209 MH.

Smoking Pathology - Article #2

by Dr. Belzer

Because smoking removes the lung's protection against the entry of pollutants and microbes (see article #1 in March 13 BULLETIN), the amounts and types of irritants reaching the delicate air sacs (alveoli) deep in the lung greatly increases. White blood cells invade these air sacs to try to destroy the germs and pollutants that have gotten in. In so doing, our white cells release powerful digestive enzymes that not only destroy the pollutants, but also damage the delicate membranes of our air sacs deep in the lung. Destruction of the air sacs is not often very rapid because out lung cells produce chemicals that reduce the destructive effects of white cell enzymes on the lung membranes. However, year after year, the cumulative damage can reach the point where we have little functional lung tissue remaining (emphysema). Emphysema is one aspect of a group of lung diseases called Chronic Obstructive Pulmonary Disease (COPD). In the Us, death from COPD is *greater then from any other cause* at the present time! This is true even though fewer Americans now smoke. The reason for that apparent contradiction is the slow rate of lung destruction; the epidemic of deaths occuring now is among people who began smoking decades ago, after World War II when the smoking industry began to successfully recruit large numbers of smokers through vigorous advertising and by giving away free cigarettes. The accumulated gradual damage is now taking its toll.

Humans are all genetically different (except for identical twins) One of the differences is how good our lung cells are at producing protective chemicals. Unfortunate smokers (whose cells are poor at producing protective chemicals) can lose enough lung tissue by their thirties or forties that the last years of their prematurely terminated life are spent as a cripple (due to inability to get enough oxygen and get rid of enough carbon dioxide). Nonsmokers, too, can inherit this poor capacity for producing protective chemicals in the lung. The smoke that they breathe in from family members or associates can therefore have a similarly accelerated capacity to destroy their lung tissue. Since the progression of tissue loss in the lung is usually not noticable to the individual until there is too little lung function left to support normal activity, quitting smoking early can stop the process of tissue destruction in the smoker, and those who live near them, while there is still functional lung tissue remaining. What has been lost will not be replaced; in fact, inflammatory processes will continue to destroy tissue for a while after smoking stops. But the sooner that smoking stops, the more lung function can be saved. Lots to win with nothing to lose.

TIPS FROM THE TUTORING OFFICE

By Linda Hawkins

TEXTBOOK MARKING

Textbook marking can be a useful aid to study and review, but it must be done with thought and care. When marking a textbook, don't underline or highlight so many items that you defeat your purpose: quick identification of important points. Underline brief but meaningful phrases rather than complete sentences and consider jotting down your own thoughts in the margins. These will serve as cues to the paragraph ideas later on when you are reviewing material

SMOKING PATHOLOGY - ARTICLE #3

BY DR. BELZER

Few, if any, of the pathological consequences of active smoking were recognized or suspected until extensive research on its effects began in the 1960s. Similarly, pathologic consequences for nonsmokers who breathe in "second-hand" smoke have gone unrecognized and perhaps unsuspected until recently. Recent research, however, is beginning to document the problem for nonsmokers who breathe in "second-hand" smoke (passive smoking).

A 1980 report from the EPA concluded: "...exposure to tobacco smoke, limited to the workplace only, is deletrious to the nonsmoker and significantly reduces small-airway function... (it) presents a serious (involuntary) risk to the health of nonsmokers." A 1985 research review in the New England Journal of Medicine noted that the level of carbon monoxide "... in the blood of passive smokers was equivalent to that in voluntary smokers consuming 5 cigarettes" after a half day's exposure to a smoking environment. That same article reported that "... the amount of nicotine absorbed passively by nonsmokers over a period of 4 hours produced salivary and urinary concentrations of nicotine similar to those found ... in smokers of 1 to 10 cigarettes per day." The report also reviewed evidence that this degree of passive smoking can produce vasospasm and even angina involving coronary arteries, and that it impaired airway function, to a degree caused by active smoking of 1 to 10 cigarettes. It's not surprising to learn that a person who did not light the cigarette would suffer some of the same ill effects as the person who did, when they both sit in the same area breathing in smoke. But it's only been recently that researchers have begun to do the studies to document the effects.

Nonsmoking family members also, naturally, suffer from passive smoking. "Children of mothers who smoked had a 70% greater chance of being hospitalized for respiratory and middle ear infections than children of nonsmoking mothers." "Men exposed to smoke only from their mothers as children had an increased lung cancer risk (1.5 times)." "The spouse of either sex of a heavy smoker had a cancer risk that was 3.5 times that of spouses of nonsmokers." A 1986 report in the journal *Science* concluded that "There is clear evidence that nonsmokers who live with smokers face a 35% higher risk of getting lung cancer than those who did not. Passive smoking presents a public health threat broader than generally appreciated."

Two other 1986 studies reported that nonsmoking pregnant mothers experienced DNA damage in placental cells due to passive smoking, comparable to that of pregnant women who smoked; and that "... although nonsmokers may inhale less nicotine because passive smoke ... is diluted in the air, the persistance of (nicotine metabolites) in their bodies indicate that hazardous by-products of tobacco linger longer in the nonsmoker."

Wondering How Graduation Honors are Calculated?

The academic honors of Summa Cum Laude (3.80 - 4.00), Magna Cum Laude (3.60 - 3.79), and Cum Laude (3.40 - 3.59) are designated in the commencement program for the undergraduate students with outstanding scholastic records based on their current cumulative quality-point averages, as of January 1, 1989, where A = 4, B = 3, C = 2.

These honors were compiled prior to the submission of final grades and will be adjusted accordingly, if necessary, on the official transcript upon receipt of final term grades.

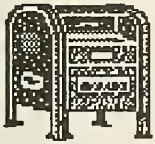
TIPS FROM THE TUTORING OFFICE

By Linda Hawkins

Preparing for final exams? In order to prepare effectively for any test, you need to know what to expect from it. Your instructor is a prime source of information. He or she should be willing to answer your questions about test content (comprehensive? covering only certain material?) and format (objective questions? Essay questions? or a combination?). Take the initiative to find out what's expected of you, and plan your study strategy accordingly. The Tutoring Office, rooms 207 and 209 Montgomery, will be open during finals week to assist students in preparing for their final exams.



NOTICE TO ALL CLUBS:
The Club Office is for your use. Mailboxes are there for a purpose. From now on, all communication to the clubs will be through these mailboxes. It is the responsibilty of the club to pick up their mail so as to know what is going on.

EDITOR'S NOTE: The crossword puzzle on page 4 was developed by James Bickel. Thanks, James.

TUTORS NEEDED

The Tutoring Office is accepting applications for tutors for the 1989-90 academic year. If you are interested in helping others while gaining valuable experience suitable for inclusion in your resume, please stop by room 209 MH to obtain a tutor application form.
The form identifies the criteria that must be met in order to be eligible for a paid tutoring position. If you have any questions regarding working as a tutor, phone Tutor Supervisor, Linda Hawkins, at 676-6591 extension 273.

Job Search Are you Prepared?

The Career Resource Center is available to assist students in the preparation of their Resume and Cover Letters. The center also has many pamphlets and other forms of literature available to help students become better prepared for the job interview and other aspects of the job search. Don't put off the preparation for your career until the last minute. Let the Career Resource Center be of assistance to you. We will also help you to complete your credential file for your career portfolio.

Summer Orientation Leaders

We are looking for a few good and interested students to volunteer time on June 23 and or June 28 as Summer Orientation Leaders. You can be the first to meet the new freshmen class for the Fall'89 semester. Leader applications are available in the Frame Office. Please complete them and return them to Mrs. Price by the end of finals week. This is an exciting opportunity for new students to meet current students and it looks great on a resume.

Any student who does not wish to have their telephone number published in the 1898-90 Student Calendar/Directory should write their name, address, and social security number on a piece of paper and leave it in Kim Price's mailbox in Frame. Please write on the paper that you don't want your number published. This should be done before the end of finals.
